SUMMARY

Angular Frontend Developer with 3+ years of experience building real-time platforms, payment systems, and data-driven dashboards using TypeScript and modern web technologies. Proven ability to deliver responsive, scalable, and user-focused applications through strong collaboration with product, backend, and design teams. Experienced in API integration, authentication systems, and performance optimisation.

TECHNICAL SKILLS

Frontend: Angular, TypeScript, JavaScript (ES6+), HTML5, SCSS, Angular Material
Data & Visualization: Chart.js, ApexCharts
Backend & Integration: GraphQL, JWT Authentication
Tools & Design: Figma, Adobe Photoshop, Illustrator, Premiere Pro, After Effects, Auto CAD
Other: Responsive Design, REST APIs, Firebase, Git

PROFESSIONAL EXPERIENCE

Frontend Developer / UI UX Designer

Paid Chain Sdn. Bhd., Kuala Lumpur
Oct 2023 – Present

- Built and maintained a **real-time EV charging platform** enabling users to locate, reserve, and pay for charging stations.
- Integrated **GraphQL APIs** for live station updates and payment processing, improving system responsiveness.
- Implemented JWT-based authentication and authorization, ensuring secure user sessions.
- Built responsive UI components using Angular Material, optimized for desktop, tablet, and mobile.
- Developed interactive analytics dashboards (Chart.js, ApexCharts) to visualize energy usage, peak demand, and station utilization.

- Designed and delivered admin dashboards, reducing reporting time by 45% and improving operational insights.
- Led frontend development for a merchant e-invoicing system, including invoice generation, transaction tracking, and dashboard features.

Tech Stack: Angular, TypeScript, SCSS, GraphQL, Angular Material, Chart.js, ApexCharts

Frontend Developer

Vision77, Selangor
Jan 2023 – Sep 2023

- Built responsive marketing and landing pages for multiple clients including F&B and crypto products.
- Translated Figma designs into production-ready UI, ensuring pixel accuracy and usability.
- Improved user engagement through clear layout structure and optimized call-to-action flows.

Web Developer / Graphic Designer

Energetic Point Sdn. Bhd., Selangor
Jan 2022 – Dec 2022

- Developed UI for a bus ticketing system, including route search, booking flow, and payment interface.
- Designed responsive layouts using Flexbox and CSS Grid for seamless user experience.
- Improved checkout usability through form validation and structured user flows.
- Delivered both UI development and design assets, bridging design and engineering workflows.

Tech Stack: ASP.NET (Razor), HTML, CSS, Git

Education

B.Sc. (Hons) Computer Science
Universiti Teknologi MARA (UiTM)
2021 - Expected 2027 *(Part-time)*

B.Eng. (Hons) Mechanical (Automotive)
International Islamic University Malaysia
2017 – 2020

Diploma in Mechanical Engineering
Universiti Tenaga Nasional (UNITEN)
2014 – 2016

Selected Projects

Mozek Website / Angular Design System Platform

- Built a design system showcase website for reusable UI components, styling utilities, and design foundations using Angular
- Created responsive component pages with live examples, documentation, and structured layouts to improve usability and developer experience
- Applied TypeScript and SCSS to develop scalable, maintainable, and consistent frontend architecture
